

Corporate Education Partners

Employees remain where they can grow. Increase retention with learning opportunities that drive purpose and community impact.

Our Corporate Education Partner program offers a three-part training series that teaches your staff about child abuse, its effects on society, and what they can do to prevent it. This program builds a trauma-informed community and cultivates a committed workplace.

Beyond our three-part series, we offer additional opportunities that can be customized to fit the needs and goals of your organization. The duration of each training is typically 1-2 hours.
